PROFILE

An energetic and driven full stack web developer who is looking for position in an organisation that wants to guide and mentor their employees and give them the chance to grow in the field.

I have a background in Digital Project Management which gives me experience in, requirements gathering and bridging the gap between technology and non-technology stakeholders.

I have experience working with Ruby, JavaScript, JQuery, Node.js, Ruby on Rails, Ajax, Handlebars, PostgreSQL , RESTful APIs, HTML/CSS.

EXPERIENCE

Web Developer

Code for Australia / 2017 - Present

A Code for Victoria II Fellow within the Disputes Settlement Center of Victoria. A developer in a team of 3 creating a human centered designed solution to assist clients self-resolve their disputes.

Achievements:

Using Service Design and Agile practices identified a digital solution to assist Clients . Currently developing a Proof of Concept using Node.js, PostgreSQL with AWS, Travis and GitHub continuous integration.

Web Development Immersive Student

General Assembly / 2017 - 2017

A 12 week intensive Web Development Course learning the fundamentals in front end and backend web development.

Achievements:

Developed a Property Planning Application (Ruby on Rails) using City of Melbourne Data and was given the opportunity to present the idea to the Data Planning/Knowledge Management Team at City of Melbourne.

Digital Project Manager

Victorian Chamber of Commerce & Industry, Melbourne / 2015 - 2017

Manager of the Project Management Office, and initiating and leading the Digital Program (Salesforce, Sitecore implementation).

Achievements:

Successfully managed a Digital Program of work from Idea through to Business Case and Tender (\$3.6M). Established a Project Management Office with Agile principles.

Senior Digital Project Coordinator

UniSuper, Melbourne / 2014 – 2015

A 12-month contract to implement Program Reporting and governance on the Digital Transformation Program (\$12M+).

Achievements:

Green fields implementation of a Program Management reporting, scheduling and finance tracking on behalf of the enterprise PMO.
